 - bingo halls
- More flexibility for 'cohort' groups – small groups of people whose members do not always keep 2 metres apart:
 - a household can increase its close interactions with other households to a maximum of 15 people
 - performers can have a cohort of up to 50 people (cast members or performers)
 - sports teams can play in region-only cohorts of up to 50 players (mini leagues)

- Social gatherings that exceed above listed maximums
- Regular in-school classes for kindergarten to Grade 12. Classes will resume September 2020

The success of Stage 2 will determine when Alberta progresses to Stage 3. Factors are active cases, health-care system capacity, hospitalization and intensive care unit (ICU) cases, and infection rates.

Provincial Measures and Indicators of COVID-19 Regional Risks

There are two indicators the Province is using as measures on how regions are doing, with three classifications:

Open

- low level of risk, no additional restrictions in place
- less than 50 active cases per 100,000

Watch

- the province is monitoring the risk and discussing with local government(s) and other community leaders the possible need for additional health measures
- at least 10 active cases and more than 50 active cases per 100,000

Enhanced

- risk levels require enhanced public health measures to control the spread
- informed by local context

Currently our regions falls within the open category.
