

September 2020 Newsletter

On August 12, the Government of Canada announced an additional \$305 million for the Indigenous Community Support Fund. This funding will be available to First Nations, Inuit, and Métis communities, as well as Indigenous communities and organizations serving Indigenous peoples, including First Nations living off-reserve as well as Inuit and Métis living in urban centres. This fund helps Indigenous communities prevent, prepare and respond to coronavirus disease 2019 (COVID-19). This fund can be used for a wide variety of measures such as supporting Elders and vulnerable community members, addressing food insecurity, educational and other supports for children, mental health assistance and emergency response services, preparedness measures to prevent the spread of COVID-19, and more. It will be distributed through a combination of allocations directly to First Nations, Inuit and Métis leadership, and needs-based funding, which will be application driven. This funding will be available to First Nations, Inuit, and Métis communities, as well as Indigenous communities and organizations serving Indigenous peoples, including First Nations living off-reserve as well as Inuit and Métis living in urban centres, on an application basis.
